Conveniently located near all major highways, Port Chester Nursing and Rehabilitation Centre serves the greater Westchester County area.

Enriching the Lives of Residents... Every Day

Port Chester Nursing and Rehabilitation Centre offers residents a beautifully landscaped patio and deck with gardens and benches. Residents enjoy outdoor activities including barbeques and walks through the gardens in a secure environment. Residents also enjoy many trips outside the facility such as picnics on the beach, Rye Playland, Westchester Theatre, shopping, or out to dinner for Chinese food or pizza. Our innovative therapeutic recreation program includes music programs, yoga classes, a quilting group, pet therapy and salon services.

At Port Chester Nursing and Rehabilitation Centre, we believe that delicious food served in an appetizing manner enhances socialization and quality of life. And our active Resident Council assists the food service director in planning menus.

Port Chester Nursing and Rehabilitation Centre is proud of our relationship with local schools and children in the area. In fact, we have a weekly playgroup for young mothers and toddlers which meets at our facility to promote interaction and activity between residents and these formative young children who adore a hug or reading a book with residents.

At Port Chester Nursing and Rehabilitation Centre, we are committed to providing the finest care to each and every resident.

We invite you to call us for more information or to arrange a private tour of our facility.

Port Chester

WELCOME TO NURSING AND REHABILITATION CENTRE

...a 160 bed facility offering the quality care, intimate environment and convenient location families seek for long term care and short term rehabilitation.

As a premiere provider of quality health care, Port Chester Nursing and Rehabilitation Centre is proud of its reputation throughout the region for excellence in quality care. Port Chester Nursing and Rehabilitation Centre offers 24-hour skilled nursing care, rehabilitative and subacute care. Our staff is comprised of professionals who bring a unique blend of experience, dedication and compassion to the very special residents of our facility.

Port Chester Nursing and Rehabilitation Centre has excellent relationships with area hospitals and physicians. In fact, residents can often maintain their own community physician once they are admitted to our facility, while a geriatrician is on premises daily.

With admissions available 7 days a week, Port Chester Nursing and Rehabilitation Centre works closely with families and residents to create a smooth transition during the admissions process and discharge-planning phase. Our intimate environment promotes camaraderie among staff and residents, who feel like an extended family.

A Unique Setting for Rehabilitation

At Port Chester Nursing and Rehabilitation Centre, we've designed an environment which enhances recovery and enriches quality of life. Our beautifully decorated facility offers a caring and nurturing environment with amenities such as our Art Gallery, featuring beautiful paintings encased in exquisite gold frames.

After strolling through the Art Gallery, residents enjoy reading or watching television in our library, or visiting with friends and family in our elegant lobby surrounded by a huge aquarium filled with colorful fish.

Maximizing Independence and Recovery

Our intensive rehabilitation program assists residents recovering from an illness, injury or surgery by providing physical, occupational and speech therapy. Our interdisciplinary team includes physicians, specialized nurses, therapists, social workers, therapeutic recreation specialists, dietitians and other health care professionals. Our approach focuses on recovery and the transition to home as residents increase mobility and independence through rehabilitation featuring state-of-the-art equipment, an activities-of-daily-living kitchen and other adapted home environments.

The Wound Care program at Port Chester Nursing and Rehabilitation Centre allows residents requiring wound management to receive specialized care from staff who receive specific training on the latest techniques in wound care. Our trained staff closely monitors these residents for maximum healing and comfort.

The Sunshine Club... A Special Dementia Program

The Sunshine Club, a self-contained multi-sensory enrichment program at Port Chester Nursing and Rehabilitation Centre, offers a safe and nurturing environment for residents with Alzheimer's Disease and other related dementias. The Sunshine Club meets daily and includes reality orientation, music therapy, art and crafts activities and tremendous staff support and encouragement. Trained by the Alzheimer's Association, our staff has been successful in increasing resident participation and socialization while decreasing agitation.
